

Title: Let's Buy! (Gr 1:4.2.1)

Strand: **Measurement**

Benchmark 4.2.1

Critical Knowledge: **Identify and count coins (e.g. penny, nickel, dime and quarter).**

Activity: In *Kidspiration*, students select 3 items to price under \$1.00. Use the coins in the math category to represent the amount.

The image shows a worksheet for a math activity. It features three items with prices: a doll for 50¢, a calculator for 42¢, and a group of colorful balls for 35¢. Below each item is a collection of US coins (quarters, dimes, nickels, and pennies) that students can use to represent the price. The doll's price is shown with a dashed line and a bracket labeled "50¢". The calculator's price is "42¢". The balls' price is "35¢".
