

Title: Making Change from \$1.00 (GR 2: 4.2.2)

Critical Knowledge: Compare money amounts and make change from a dollar.

Activity: Use *Kidspiration* to create a template showing a dollar bill and 3 ovals linked from it. You may also want to type "Making Change from \$1.00" under the dollar graphic. Link 3 bubbles from this one. Students then select a graphic (symbol) for each bubble and label with a price under \$1.00. Teach students how to type the ¢ symbol using the option key and number 4. Students then use the coin graphics to illustrate the change.
