

# Title: What's Your Favorite Restaurant(Gr 2: 3.2.1)

Critical Knowledge: **Collect, record, construct, and analyze data(e.g. Pictograph, bar graph).**

Activity: Use *Clarisworks for Kids* to create a table and graphs after collecting data. Open *Clarisworks for Kids* and click on the **Graphing Pad** then on the **Bar Graph** icon.(There are other graphing options, e.g. pie graph.) A template of a table and graph will open. Each item on this template is a text box where information can be deleted/inserted. As the numerical data is inserted the size of the bars change along with the range. All changes added will appear on the graph. Students can add notes analyzing the data.

Favorite Restaurant	
Restaurant	Votes
McDonald's	6
Burger King	4
Buffet House	5
Planet Pizza	8

**Notes**

Planet Pizza has the most votes and Burger King has the least votes.

There are 23 votes in all.

McDonald's and Buffet House have 11 votes together.
